S I R:

Applicant and his counsel have carefully reviewed the Office Action dated February 7, 2005, but believe the claims in their present form are patentable over the reference relied upon by the Examiner. Reconsideration of the application in view of the following arguments in support of patentability is therefore respectfully requested.

REMARKS

In the February 7, 2005 Office Action, each of the respective groups of claims, beginning with an independent claim (claims 1-11, claims 12-16, claims 17-27, claims 28-32) were rejected under 35 U.S.C. §102(b) as being anticipated by Wright et al. With regard to each of independent claims 1, 12, 17 and 28 the Examiner merely copied the language of those respective claims and generally cited language at column 2, line 65 through column 4, line 30 of the Wright et al. reference.

These rejections are respectfully traversed for the following reasons.
